Professional Summary

I'm a passionate Full-Stack Developer with a growing specialization in mobile development. Skilled in building responsive, user-focused web and mobile applications using React Native, and the MERN stack. I thrive in fast-paced, collaborative environments and am committed to continuous learning and delivering impactful software solutions.

Experience

Full Stack Developer – kLab (TechHer program)

January 2024 – September 2025 | Kigali, Rwanda

- Engaged in real-world full-stack development projects.
- Practiced code collaboration, debugging, and real-time feedback cycles.

Mobile Developer Trainee – kLab (kLab DSE TekHer Program)

April 2025 – August 2025 | Kigali, Rwanda

- Participated in intensive training focused on mobile app development.
- Focused on MERN stack and mobile application development using React Native.

Full Stack Developer - Mulinga Labs

September 2025- October 2025| Remote

- An internship as Full stack developer focused on mobile development.
 - Focused on strong security of the app and proper working and user-friendly.
-

Key Projects

Connect Four Game – A logic-based board game implementation.

Developer Portfolio – Personal portfolio showcasing technical skills and projects using modern frontend technologies.

Eventify – A project designed to manage events and RSVPs efficiently.

My Portfolio Website – Developed using React and hosted on Vercel to showcase my resume and achievements.

Medica App – An online doctor appointment app built in React Native with Supabase and biometric authentication support.

Instagram Clone – A social media clone with full authentication, media upload, and real-time interaction using Firebase.

Parking Booking App – A mobile-first app enabling users to reserve parking spots with an intuitive booking interface.

ACR-Online Accounting Services Website – Designed and developed a responsive company website to showcase ACR's services and solutions. Implemented an intuitive **admin dashboard** for content management and performance tracking.

Banking App – Easy banking app that can help someone control his/her income flow involving his bank account, MOMO and other.

Education

Advanced Diploma in E-commerce

Currently enrolled.

High School Diploma in Networking and Internet Technology

Kivu Hills Academy, 2021 – 2024

Certifications

- **Introduction to Flutter** – Simplilearn, 2024
 - **JavaScript Algorithms and Data Structures (Beta)** – freeCodeCamp, 2023
-

Community Involvement

Youth Volunteer – Rwamagana District, Kigabiro Sector

April 2020 – October 2021

- Mobilized 500+ youth in COVID-19 awareness campaigns.
 - Contributed to a 25% increase in community health compliance.
-

Skills

Industry Knowledge

Mobile & Web App Design, Software Development Life Cycle (SDLC), Functional Programming, Debugging, Code Refactoring, Software Projects, Mathematics, Desktop Application Design, Software Testing, Queues,

Networking & Internet Technologies:

OSI Model, TCP/IP Stack, HTTP/HTTPS, WebSockets, DNS, CDN, Firewalls, NAT, VPNs, Load Balancing, IP Addressing (IPv4/IPv6), DNS Resolution, DHCP, SSL/TLS, Proxy Servers, Caching Mechanisms, Cloud Networking (VPCs, Subnets),

Windows Server Technologies:

Windows Server Administration, Active Directory (AD), Group Policy Management, Domain Controllers, DHCP/DNS Server Configuration, Remote Desktop Services (RDS), File & Print Services, User & Permission Management, Server Roles & Features

Languages & Technologies

JavaScript, TypeScript, HTML5, CSS, SQL, JSON, MongoDB, Postgres

Networking Tools & Protocols: cURL, Telnet, Ping, Traceroute, Nmap, Netcat, Wireshark, OpenSSL,

Windows Server Tools: PowerShell, MMC, Server Manager, Event Viewer, Task Scheduler

Frameworks & Tools

React Native, React Hooks, Next.js, Firebase, Supabase, Tailwind CSS, Figma, Git, Web3, Github,

Cloud & Network Tools: Postman, Docker (Networking), Nginx, HAProxy, Express.js, Socket.IO, SSH, FTP/SFTP, RESTful & GraphQL APIs,

Windows Server Management Tools: Remote Server Administration Tools (RSAT), Active Directory Users and Computers (ADUC), Windows Admin Center

Soft Skills: Logical Reasoning, Problem Solving, Oral Communication, Analytical Thinking, Knowledge Sharing, Team Collaboration, Attention to Detail, Communication, Responsiveness, Resolving Issues.

Network-Aware Debugging, Security Awareness in Internet Communications, System Administration Practices, Infrastructure Troubleshooting, User Access Control Mindset
